PROFILE

I am a second-year Software Engineering and Economics conjoint student who is passionate about using software to solve real-world problems. I am interested in backend and frontend development, including APIs, UI design, AI applications, and project design. I have experience with Python, Java, web applications, React, and other modern technologies.

EDUCATION

- **2025 - Present**
The University of Auckland
Bachelor of Commerce / Bachelors of Engineering (Honours)
 - Engineering specialisation in Software Engineering.
 - Commerce specialisation in Economics.
 - Expected graduation in 2029.
- **2020 - 2024**
Northcote College
List of (prominent) awards won:
 - Best in year in Economics (2023, 2024).
 - Best in year in Computer Technologies (2022, 2023, 2024).
 - Student Volunteer Army Top Volunteer Award (2023, 2024), plus bronze, silver, and green SVA awards.

PROJECTS CREATED

- [Link to my GitHub](#)

Prominent projects

- [Auckland University Med Revue Website](#) - Worked with ten developers to design and develop the Med Revue website for a client, using Tailwind CSS, React, and collaborating using Git branches and pull requests. Developed mobile responsiveness and refactoring of files.
- [Movie review website](#) - Developed a web application that allows users to search movie reviews using Python and Bootstrap. Integrated APIs to retrieve data.
- [COVID cases tracker](#) - Developed a Python-based application that uses APIs and displays real-time COVID stats.
- [Celebrity comparing AI bot](#) - Developed a chatbot that compares celebrities using a Bootstrap interface and JSON parsing logic to compare API-fetched data.
- [Celebrity facts AI bot](#) - Developed a Django-based web application that generates and displays celebrity facts using structured JSON data and HTML.

LEADERSHIP

- **2024**
Prefect
 - Helped staff and families with events, day-to-day help.
 - Helped organise assemblies and extracurricular activities.

TECH / WEB SKILLS

- **Languages** : Python, HTML, CSS, Java.
- **Frameworks** : React, Django, Tailwind CSS, Bootstrap.
- **Tools and technologies** : APIs, JSON files, Arduino,
- **Collaborative tools** : Git/GitHub.

EXTRA CURRICULARS

- UoA Web Consulting and Development Club.
- UoA Women in Engineering Club.
- Auckland University Engineering Society.

WORK EXPERIENCE

- **2025 - Present**
NumberWorks'nWords Tutoring
 - Tutoring school children, years 2 to 11, in Maths.
 - Explaining concepts simply and ensuring proper understanding.
- **2023 - 2024 (Volunteering)**
Habitat for Humanity Op Shop
 - Assisted customer requests.
 - Collaborated with managers and team members to ensure smooth day-to-day operations.

LANGUAGES

- English (fluent).
- French (basic). DELF Level B1.
- Tamil (basic).
